Railroad Presidents Talking.

WASHINGTON, February 24.—Charles Fran-
cis Adams, President of the Union Pacific
Railway Company, and ex-Senator McDon-
ald, attorney for the Central Pacific, ap-
peared before the House Committee on
Pacific Railways to-day, and expressed their
views at length upon the general subject of
the indebtedness of the Pacific railroads.
Adams declared the present management of
the Union Pacific Company was endeavoring
to fulfill the company's obligations to the
government in good faith, and that the
road was not manipulated for speculative
purposes. A large proportion of stock, he
said, was held by trust companies, estates
and widows. Unaided branch lines consti-
tuted the main source of revenue, and with-
out them the road could not be operated at
a profit.

A Cut from St. Paul.

St. Paul, February 24.—The St. Paul &
Minneapolis Local Passenger Agents' Asso-
ciation this morning issued instructions to
sell first-class limited tickets to San Fran-
cisco, via either Omaha or Kansas City, for
\$42.50, and second-class limited for \$32.50.
The Northern Pacific still retains the \$45
passenger rate to San Francisco, but made a
cut on the rate to Portland, as announced
yesterday.

Soon Will Come the Chrono.

CHICAGO, February 23.—The Atchison, To-
peka & Santa Fe Railroad withdrew its re-
bute to-day, the Union Pacific fell into line
and the Burlington & Missouri river line
to San Francisco from the Missouri river, of
\$30 limited first-class and \$20 emigrant be-
cause the ruling figure, this again reduces
the rate to Portland, Oregon, via San Fran-
cisco from the reduction recently made by
the Northern Pacific to the same point, and
that line will be forced to come down again.
The last cut drives into Utah Territory.
The local rate from Council Bluffs to Ogden
has been \$21.50, which is 25 cents above the
present ruling rate to San Francisco. As a
consequence, all the local rates to and be-
yond Ogden are disturbed. The leading
officials think that both passenger and
freight rates will go down to merely nominal
figures. At present freight out of Chicago
is being taken at about 30 per cent. off,
although heavy shippers can get still lower
figures.

First-class tickets from Chicago to San
Francisco are now \$42.50, second-class
\$32.50, against \$45.00 before the cut. These
cuts are all open and made by all the lines.

The Pan-Electric Matter.

WASHINGTON, February 24.—The House
Committee on Mines to-day agreed to report
back the Hanks resolution providing for
an investigation of the Pan-Electric Tele-
phone.

Forty-Ninth Congress.

The House.

WASHINGTON, February 24.—The Commit-
tee on Naval Affairs reported back the resolu-
tion calling on the Secretary of the Navy
for a complete list of officers now on the
retired list of the navy, together with a
statement of the specific reasons for which
they were placed there. Adopted.

San Francisco.

SAN FRANCISCO, February 23.—Associated
Press Yokohama private advices state that
all reports charging Ex-Governor Hubbard,
United States Minister to Japan, with con-
duct unbecoming an American Minister are
untrue. That he has always conducted him-
self in such a manner as to win the con-
fidence of the Japanese government and the
respect of his diplomatic colleagues, and
that his abilities and high character are
recognized by the entire foreign community.
A French ship arrived at Yokohama
from Nagasaki where the smallpox is
epidemic, with a number of cases of that
disease aboard.

Baggage Checked Through.

MONTREAL, February 23.—Superintendent
Stephenson, of the Grand Trunk Railway,
recently made an application to the Treas-
ury Department at Washington to have the
customs regulations which apply to passen-
gers and baggage on the New England
line extended to the Middle, Southern
and Northwestern States. Duplication of
the application have just been granted, and
on and after the first of March next, all
passengers destined for any point in the
United States over the Grand Trunk Rail-
way, can have their baggage examined by
the U. S. Customs Officers located at Mon-
treal, Prescott, Toronto, London and Strat-
ford, after which the baggage will go
through without further examination at the
United States frontier.

No Dentist Will Appear Against
Maxwell.

St. Louis, February 24.—The widely cir-
culated statement that a dentist of Oak-
land, Cal., would appear as an important
witness against Maxwell, the alleged mur-
derer of Preller, is pronounced false. The
dentist stated that he felt confident could
identify the body as that of Preller, because
when the latter was in Oakland he did some
dentistry work upon his teeth which he
stated he could easily recognize upon exami-
nation. It appears now that there is no
truth in the statement.

The Small Change Subject.

WASHINGTON, February 24.—The general
subject of the issue of Treasury notes and
silver certificates of small denominations
was discussed at to-day's meeting of the
House Committee on Banking and Currency.
There are now forty-eight bills before the
committee touching the subject under con-
sideration. It was the sense of the commit-
tee that a general bill, or perhaps two,
covering the matter, should be formulated and
reported in lieu of those bills, and with that
view the bill will be divided among three
sub-committees for examination.

A Chief Policeman's Lot Is Not a
Happy One.

LOAN, February 24.—A deputization of
Fair Trade waited upon Colonel Hender-
son two days before the meeting and
warned him of a probable collision with the
Socialists, who at a meeting had advocated
the storming of the Post-Office building.
Colonel Henderson provided a police force
at Trafalgar Square, where he himself
attended in the evening, at the close

of which he ordered a force of police to pro-
ceed to Fall Mall. By an error of subordi-
nates the force went to Fall Mall, instead of
James Park, instead of Fall Mall. Colonel
Henderson admits he depended on what he
observed to be a fact—that crowds always
gathered by the way they had come. In this
instance the theory was correct.

Lord Aberdeen, in the House of Lords,
paid a tribute to Col. Henderson's success in
lessening crime and minimizing convictions.
The press generally express regret at Col.
Henderson's retirement, but concede that
his blunders more than sufficed to balance
his distinguished record.

The Crops Are Smiling.

CHICAGO, February 23.—The following crop
summary will appear in the *Farmer's Review*
this week from numerous returns made by
its correspondents: The returns from the
winter wheat fields are almost uniformly
good. They present an outlook nearly as
favorable as those seen in early 1885, when
the outlook was exceptionally good for a
large yield. The snow has entirely disap-
peared from the fields, enabling a very clear
view of the condition of the plant, and from many every county in
Indiana, Michigan, Illinois, Missouri, Ken-
tucky and Kansas it is reported as looking
strong and healthy. The utter disappearance
of the snow covering is the only winter
menace now threatening the growing grain,
and with another general fall of snow the
outlook would hardly be better. That is pre-
sented in the reports of the correspondents.
A prolonged season of severe cold weather
with the fields still unprotected, would prove
undoubtedly a serious danger which might
change the tenor of the reports. The latest
reports from California, Oregon and Wash-
ington Territory are generally more favor-
able than at the same time last year.

No Chinese Were Ordered Home.

SAN FRANCISCO, February 23.—An Asso-
ciated Press representative called at the
office of the Chinese Consul-General to-day
to ascertain the origin of the published re-
port that he had issued a proclamation ad-
vising the Chinese to return home. The
Consul-General's secretary emphatically de-
clared that any such proclamation had been
issued. He stated that Chinese Consul Gen-
eral had made arrangements with steamship
companies to carry the poor, sick and mem-
bered Chinese back to China for free at
half rates. Notices concerning this were
sent out requesting the Chinese to take ad-
vantage of these cheap fares, and these facts
probably gave rise to the first-mentioned re-
port.

British Trade Depression.

LONDON, February 24.—At a meeting of
the Chambers of Commerce in this city to-
day, Mr. Forwood, Conservative member of
Parliament from Lancashire, and a promi-
nent merchant and ship-owner of Liverpool,
presided. He attributed the present de-
pression in British Trade to the competition
of gold, assisted by the competition of for-
eign products and manufactures turned out
by skilled labor improved by technical edu-
cation.

The Socialists Trials Resumed.

LONDON, February 24.—Hearing in the
case of Burns, Hyndman, Champion and
Williams, Socialists leaders, accused by the
authorities of having incited the recent riots
at Trafalgar Square and Hyde Park, was re-
sumed to-day. The session was devoted
principally to hearing the testimony of
newspaper reporters as to the exact language
used by the defendants in their inflammatory
speeches.

Parliament's Opinion of Churchill.

LONDON, February 24.—In an interview,
Parliament did not attach any serious
political importance to Lord Churchill's
speech at Belfast, and says the visit to
Ulster would likely end in smoke. It is not
generally known that the proportion of
Catholics to Protestants in Ulster was 49 to
51. Churchill was the most contemptible
politician. He would take either side just
as it suited his purpose at the moment. He
was virtually on the National side and
against the Orangemen. Just before taking
office he was extremely unpopular. With the
Orangemen, he was a political outlaw. It was
impossible for him to speak for the native
leaders of the party.

No More Scotch Ruchings.

LOAN, February 24.—Several thousand
Scotchmen have been driven out of em-
ployment by the collapse of the Scotch
ruchings industry, due to an American in-
crease of duty on goods of that class.

German Quacks.

BERLIN, February 23.—The *North German*
Gazette says: The prosecution is imminent
of numerous Germans who style themselves
doctors, but are in reality quacks. They have
succeeded in obtaining the right to practice
medicine in America. There are 3,400 such
doctors in Berlin alone.

Edison Is Married To-Day.

NEW YORK, February 23.—Thomas A. Ed-
ison, the famous electrician, will be mar-
ried to-morrow, at Akron, to Miss Mina Miller,
the daughter of a millionaire. Her father is
worth about \$200,000.

Financial Crisis in Sweden.

STOCKHOLM, February 24.—The commercial
depression here has reached a crisis.
The number of failures is steadily increas-
ing. The gravity of the financial situation
has not been paralleled since the panic of
1857.

Expels the Apaches to Surrender.

TUCSON, Arizona, February 23.—General
Crook left to-day for Mexico, to meet the
Apache chief Geronimo, with whom he ex-
pects to make terms for the surrender of all
the hostile Apaches.

His Coming Article on Ireland and
Ireland's Rights.

The Existence of the Irish Nation Must
Be Recognized.

Lord Churchill Waking Up a Hornet's
Nest of Critics.

McCarthy's Article on Ireland.

NEW YORK, February 24.—The *Independent*
of the 25th instant will publish an article
by Mr. Justin McCarthy, Member of Parliam-
ent, setting forth in intelligible form for
American readers what Mr. Parnell and his
confederates include in their demand for home
rule. The following comprises the substance
of it. He begins by saying that the
Nationalists do not demand separation, but
would not be satisfied with mere local
boards; that very many Irishmen would be
glad for separation, but they recognize that
the spirit of the age does not favor small
independent states, but rather an agglomera-
tion of states, and that therefore

THE QUESTION OF SEPARATION.

Does not come into practical politics. If
then goes on to say: All Irishmen I know,
certainly all responsible Irishmen, are well
content to see Ireland a part of Great Brit-
ain, and to give her the benefit of the
union on fair terms. If she is willing that
Ireland should be in partnership, but they
are not willing that she should be in sub-
jection. What they want to Englishmen
is this: "Give Ireland the right to
manage her own affairs within the line of
self defense, but she must give her share
of the cost to do for herself what every State
in the American Union does for itself—what
every one of the English colonies in Canada
and Australia does for herself. Ireland is
willing to live in friendly partnership with
you. As to Imperial affairs, we could easily
arrange. A compromise might be
found. My own idea of a satisfactory sys-
tem would be to have

A HOME RULE PARLIAMENT FOR ENGLAND.

Another for Scotland, and if needs were,
yet another for Wales, as well as one for Ire-
land, and an Imperial Parliament, in which
all should be represented for Imperial af-
fairs—affairs of common interest. This
would be just such a system as you Ameri-
cans and I know give to the United States.
No movement of coin, every transaction be-
ing accomplished by the aid of bills of
paper. Senator Frye proposes to change all
this. He would have us say one hun-
dred millions of silver to Mexico and South
America to pay for our purchases, and then
finally have it sent back to us to pay for
our grain and pork. The same process would
involve three ocean transits of silver, at a cost
of not less than one per cent. each for
freight and insurance, at the end of which
the silver would be back precisely where it
started.

Dilke Must Explain That Vote.

LONDON, February 24.—The Dilke clique
in the Chelsea Liberal Club is charged
with stealing a march on the other members,
in adopting resolutions of confidence in Sir
Charles Dilke. The majority of the council
had no intimation that that resolution would
be brought up. The meeting convened un-
willingly to hear a member read a paper on free
trade, and only Dilke and his friends were
present. Dilke explained the proceedings of
the meeting, but gave no good reason why
he did not go into the witness box during
the recent trial. The Liberals intend to de-
mand of Dilke a public statement if he did
not pack the meeting.

voring to settle their differences, the West-
ern Export Association to-day decided to
dissolve the whisky pool, and then ad-
journed.

A Celebrated Preacher Dead.

LONDON, February 24.—Giles Her-
bert, the celebrated Baptist preacher, is
dead. He was 62 years old.

Australian Bank Suspended.

LONDON, February 24.—A dispatch from
Adelaide says the Commercial Bank of South
Australia, the head office of which is at Ade-
laide, has suspended.

MONEY AND STOCKS.

NEW YORK, February 24.—11 a. m.—Stocks
irregular at opening, changes for the active
list only fractional, then became heavy to
weak, declining 1/4 to 1/2. The decline
checked, the general list being brought up
to the opening. There was an advance in
Reading, the whole market at this time be-
coming active and strong.

Noon—Stocks less active since 11, gener-
ally heavy. Pacific Mail lost 1/4. Lock-
hart, the celebrated Baptist preacher, is
dead. He was 62 years old.

Expelling Americans from Germany.

The expulsion of the Poles from Prussia
is attracting a great deal of attention
in this country, and not a little indignation
is manifested at the tyranny of Bismarck,
but the same despot continues to
expel Americans from Germany, and no
attention is paid to it. While it is well
known that the Americans thus expelled
are in most if not all cases simply Ger-
mans who have for one reason or another
taken the first step toward securing
American citizenship, it is nevertheless a
fact that these proceedings demand the
closest attention on the part of the United
States Government. In more than one
case the German authorities have violat-
ed the treaty rights of Americans who
happened to be of German origin, and
now that expulsions are becoming of al-
most daily occurrence it seems inevitable
that in many instances grievous wrong
must be done the persons so treated.
The German who acquires American
citizenship to escape the exactions of his
own Government, or to cover any
schemes of agitation that he may have in
view, living all the time in Germany, is
entitled to much sympathy either as a
German or an American, but the broad
assumption of Bismarck that he is to be
the sole judge of the rights of American
citizens abroad, irrespective of treaty ob-
ligations, is not one that can be admitted
with safety or self-respect.—Chicago
Herald.

Lord Randolph Churchill.

LONDON, February 24.—T. O'Connor, in an
interview, said Churchill failed to do his
best for the Nationalists, and is now doing
his best against them. With falling rain-
ing from a shallow mind and shallow liter-
ature, he is not a man to be trusted.

attempt," he continued, "to drag the six-
teenth century feuds into the political arena
of to-day. The story of
CHURCHILL'S RELATIONS WITH THE PARLIAM-
ENTS

is such. I never conversed with him longer
than five minutes at a time in my life."
O'Brien said: "Churchill is serving us so
lucely I almost think he is revenging him-
self on the Orangemen who threatened to
spill his meeting at Liverpool a few months
ago."

Edison's Marriage.

CLEVELAND, Ohio, February 24.—Thomas
A. Edison, the well-known electrician, was
married this afternoon at Akron, Ohio, to
Miss Nina, daughter of Lewis Miller, a
prominent manufacturer, and President of
the Chautauque Sunday-School Assembly.
The ceremony was performed at 3 o'clock at
Oak Place, Mr. Miller's elegant residence, in
the presence of about 100 invited guests.
Lieutenant F. W. Tappan, U. S. Navy, was
Edison's best man. Mr. and Mrs. Edison go
to Edison's winter home, near Fort Meyer's
Florida.

Shooting Excitement in Milwaukee.

MILWAUKEE, February 24.—About to-day
Abbott Lawrence, assistant cashier of the
National Exchange Bank, was shot and
dangerously wounded, near the Milwaukee
Club House, by George A. Warden, formerly
a book-keeper of the same bank. The ball
entered the small of the back, and was
supposed to have glanced off into the chest.
After the shooting, Warden walked to the
Central police station followed by a large
crowd of people about 100 yards. There
Lawrence is a son of an old and very
wealthy resident. It is believed that Warden
was influenced by some fancied wrong.
The shooting created the greatest excite-
ment in the city, owing to the prominence
of the two men. Both are 38 years of age
and unmarried.

Senator Frye's Wild Idea.

NEW YORK, February 23.—The *Sun's* edi-
torial: Senator Frye of Maine has evolved
a scheme for facilitating trade between the
United States and Mexico and South Amer-
ica, which betrays a most amazing igno-
rance of practical business. At present we
pay for coffee, sugar, hides, India rubber
and other articles which we import from the
countries mentioned, mainly with bills of
exchange on London, drawn against the
shipments of grain and other produce to Eu-
rope. The Mexicans and South Americans
take these bills and purchase with them
European manufactures, which are sent to
India direct from European ports, and there
is no movement of coin, every transaction be-
ing accomplished by the aid of bills of
paper. Senator Frye proposes to change all
this. He would have us say one hun-
dred millions of silver to Mexico and South
America to pay for our purchases, and then
finally have it sent back to us to pay for
our grain and pork. The same process would
involve three ocean transits of silver, at a cost
of not less than one per cent. each for

the silver would be back precisely where it
